INSTALLATION

Customer Information: The information in this installation instruction is intended for use only by skilled technicians who have the proper tools, equipment, and training to correctly and safely add equipment to your vehicle. These procedures should not be attempted by “do-it-yourselfers.”

NOTE: This kit should be installed only if the ambient air temperature is 15°C (60°F) or above.

1. Line up the driver's outer panel with the meter lower visor.

2. Apply masking tape as shown.

3. Remove the driver's outer panel.
4. Line up the driver's inner panel with the driver's inner dashboard trim.

5. Apply masking tape as shown.

6. Remove the driver's inner panel.
7. Line up the escutcheon panel with the vehicle escutcheon panel.

8. Apply masking tape as shown.

9. Remove the escutcheon panel.
10. Line up the passenger's panel with the passenger's dashboard trim.

11. Apply masking tape as shown.

12. Remove the passenger's panel.

13. Line up the left front door panel with the left front door trim panel.

14. Apply masking tape as shown.

15. Remove the left front door panel.

16. Repeat steps 13 through 15 on the right side of the vehicle.

17. Using an alcohol wipe, thoroughly clean the meter lower visor where the driver's outer panel will attach.

18. Using an alcohol wipe, thoroughly clean the driver's inner dashboard trim where the driver's inner panel will attach.

19. Using an alcohol wipe, thoroughly clean the vehicle escutcheon panel where the escutcheon panel will attach.

20. Using an alcohol wipe, thoroughly clean the passenger's dashboard trim where the passenger's panel will attach.

21. Using an alcohol wipe, thoroughly clean the left front door trim panel where the left front door panel will attach.

22. Repeat step 21 on the right side of the vehicle.

23. Apply the primer to the meter lower visor where the driver's outer panel will attach.

NOTE:

- Apply the primer evenly.
- Be careful not to apply the primer anywhere except to the indicated area.
- Do not apply additional primer.
- Wait 10 minutes for the primer to dry before attaching the driver's outer panel.
- Do not use an expired primer.

PRIMER
