2nd Accessory Relay Diagram

* (-) 2nd Accessory Output will either be a fixed output from the CM or will be a Programmable Output Channel that needs to be programmed and set to (-) 2nd Accessory (value #4).

WARNING: Manufacturer or seller assumes no responsibility for any injuries and/or damages caused by improper care of the product such as decomposition, conversion, and transform done by a user voluntarily.

WARNING: There should be no wiring routed around any pedals which can cause a driving hazard.
